

AT40: Magnum Cash Tray

The Magnum Cash Tray is a large capacity transfer unit, with integrated pay tray and audio system. This forms the ideal pay tray for out of hours retail outlets and petrol stations.

The external side of the units doubles as a counter top and writing surface during normal financial transactions; when passing large items the customer lifts the external flap to gain access to the 32 litre pass through tray. Clear communications between staff and customer is assured with the integral electronic audio system and when not in use the unit can be locked shut to maintain security.

This unit has been constructed to resist handgun and shotgun attack and includes an interlocking system to ensure no direct contact between operator and customer during use, in conjunction with electronic audio transfer this unit will provide considerable protection to staff.

To accompany this unit there is a range of glazed screen, counter and work top extensions to form a secure pay/transfer window for almost all situations.

Product Specification

Dimensions (mm)
